## Summary

Passionate and dedicated B. Tech CSIT 7th semester student with hands-on experience in MERN stack development. Proficient in MongoDB, Express.js, React, and Node.js, with a solid foundation in computer science principles. Seeking an internship and full-time job opportunity to apply and expand my technical skills, contribute to impactful projects, and gain professional experience in a dynamic and innovative environment. Highly motivated to learn, collaborate, and grow as a developer.

## Technical Skills

**Languages:** - C, C++, Python, JavaScript, TypeScript

Proficient in web development technologies such as HTML, CSS, JavaScript, TypeScript.

Familiar with front-end frameworks such as Bootstrap, Tailwind, React.js and Next.js

Familiar with back-end technologies such as Node.js, Express.js, Postman.

Familiar with database technologies such as MongoDB.

Familiar with version control tools such as Git, GitHub.

Have Practical knowledge of cloud computing systems such as Aws, EC2, S3, AWS Amplify

Have basic knowledge of DevOps tool Such as Docker

## Projects

### Horizon - Banking Management App:

- Developed a full-stack banking management application using Next.js and Appwrite.
- Implemented user authentication, including login and sign-up functionalities.
- Designed a responsive user interface to manage accounts, view transaction history, and facilitate money transfers.
- Integrated Plaid for secure bank access and Dwolla for seamless payment processing.
- Utilized Appwrite for backend services and database management.
- Ensured a robust and scalable architecture for handling financial operations.

### Ecommerce App:

- Developed a full-stack e-commerce website using the MERN stack with TypeScript (MongoDB, Express.js, React, Node.js).
- Implemented Firebase Authentication and Stripe for payment processes
- Designed a responsive user interface with React and SCSS, ensuring a seamless user experience across devices.
- Implemented CRUD operations for products, including adding, updating, and deleting items, used mongoose for models.
- Utilized MongoDB Atlas for cloud database storage, ensuring scalability and reliability.

## Education

- Pursuing B. Tech (CSIT) from PDMU, Bahadurgarh (2021-2025)
